It was my first time to study abroad. I am very interesting to go to another country because I want to learn about their cultures and languages. When I become an exchange student in Providence University, I must live in the dormitory. It was my first time to live in dormitory. Because i always live in my home before. In dormitory, I must sleep with local student in there. First time i think, it was difficult because many people in Taiwan can't speak English. But actually, my friend can speak English a little. So i taught her about Engsliah, and she taught me about Chinese Language. So it was very interesting. If you always use and keep practices about language, so you be better day by day.

Many people here taught that I am Taiwanese; they always spoke with me in Chinese. I feel a little stress and stress at the first time. When I wanted to eat in some restaurant, all of the menu in Chinese Language. It's very terrible because I can't speak and read Chinese character. But, actually, my Chinese become better, so I am not afraid again to communicate with other Taiwanese again. I think it is very challenge for me.

I had a lot of friends from other country here. I had friends from China, Taiwan, German, Japan, Australia, Serbia, Korea, and France. I like to make a friend. Many friends from China always taught me how to spoke in Chinese and how to read the Chinese character. It's very usefull for me. I could know the culture from other country, i could know many famous place in other country. Experience to be an exchange student is very amazing. I got a lot of friends and experiences here. It's very memorable in my lifetime.
